Psychic healing and psychic surgery are not professional activities that can be turned on and off. It is not like a 9 to 5 job. That was why I never wanted it, but for my beloved father, who got sick, I was willing to do anything. I had seen the impossible decades ago, when I met a Filipino psychic surgeon. He sat me down and taught me how to do it. Maybe I had no choice in the matter. I wanted to become known as an artist and a writer, not a healer. I decided that the best way I can convey learning is by sharing with you this paranormal memoir—my stories, thoughts, interpretations, doubts and “debunkings.” Maybe I was only meant to write about all this. It is time this knowledge is shared. And so now I am sharing it with you and the rest of the world. This book includes chapters detailing how the psychic surgeon / psychic healer is able to do psychic surgery, psychic healing and faith healing, without the fakery. His beliefs and mental exercises are included, together with the author Valentino Zubiri's own views and interpretations, successes and experiences on the subject. The methods are obviously non-traditional, but they are good to know, just in case someone in the family needs spiritual health in addition to the physical health provided by western medicine.
