Adolf Hitler had secretive and very specific plans for making his one dream come true, building the Master Race and exterminate those who were unworthy of his dream, those that were inferior, no matter the cost of the human life. The war was only the beginning and now in this block buster book you will learn that Hitler's Master Race did not die with him, but became a horrifying reality. The Master Race is alive and in full production due to Hitler's dedicated scientist Han's Spilman and his evil grandson Silas. Chase Phillips was the only man standing between Silas and the fulfillment of Hitler's Master Race.
