Here is an exciting collection of favorite and successful family therapy interventions from therapists which inspire more creative therapy methods in your own practice. 101 Interventions in Family Therapy features contributions by a diverse group of well-known leaders in the field, “therapists on the street,” and faculty of family therapy training programs. Each clinician presents a creative and useful intervention beginning with a complete description of the method, followed by the specific indications and contraindications for its application, and concludes with a particular case illustration. These engaging and informative stories document helpful interventions that really work, not the exotic and impractical methods of prolific marriage and family authors. Therapists at all levels can learn and incorporate these into their work with families. Practicing clinicians will learn what works for other therapists while graduate-level students and beginning counselors will benefit from the integration of theory and practice exemplified in the practical case examples. The rich and varied writing styles in this enjoyable volume reflect a multitude of personal therapeutic styles. You will find valuable insight and innovative treatment methods on critical family therapy topics such as eating disorders, the adolescent years, marriage counseling, stepfamilies, divorce therapy, communication difficulties, and conflicts with dual career couples. The smorgasbord of interventions found in this book include bibliotherapy, use of touch, creative use of space, ritual enactment, gift-giving, storytelling and countless other interventions, both revolutionary and commonsense, to enhance and improve your therapy with families.
