For students aged 14 up and professionals who need to memorise a lot of information For study, I would most recommend combining mind mapping® and the Memory Palace system (this book) • based upon simple, mostly alphabetical number- letter code • flexible enough to incorporate practically any situation or location you find most memorable • shows how to use wasteful browsing habits to make often dry study more interesting and easy • compatible with memory master Dominic O'Brien's number-letter system, the one I would most recommend for memorising strings of digits • stimulates possibilities for general memorisation • improve vocabulary and general knowledge Includes: • immediately usable and full coding possibilities for memorising multiple texts of up to 1000 pages of text and many suggestions for texts of up to 10000 pages in length • 10 easily visualised "Locations" of 100 "Objects" each for immediate use • thorough, tested for my favorite techniques and page-referenced bibliography covering most areas of memorisation for study, profession and leisure • tips on making the most of your intelligence
