The Story Behind a Massacre Dale R. R. McGregor

Author Dale McGregor grew up in Tasmania. Like the rest of the world he was shocked when the media reported the killing of 37 people on the small close knit island community in 1996. Following the events as they unfolded, he began to have doubts to the facts being portrayed. With his knowledge about the community and area, Dale began his own investigation into the many unanswered questions. After years of in-depth analysis of video footage, transcripts, photographs and eyewitness accounts, his conclusion is controversial. Martin Bryant, with an IQ of 6, could not have been the instigator, coordinator, perpetrator, and even a second Einstein as claimed by the authorities. After reading this book you will have no doubt that Martin Bryant was innocent. You will ask the same question as the author did - why did the tragedy occur and by whom?
