The USS Andrew Jackson departed from Key West with a top-secret, nuclear-equipped stealth bomber on board. Three days later it was discovered, listing, its dead crew bizarrely mutilated and the top-secret plane—and its pilot—missing. Fortunately for the President, CURE is already on the job, with Remo and Chiun hunting for a nuclear needle in the haystack. However, an old enemy of Dr. Smith's is lying in wait, putting the finishing touches on a plan that's been 35 years in the making. With stakes this high, Remo, Chiun and Smith could be facing their most dangerous mission ever. Possibly their last.

Remo Williams is The Destroyer, a New Jersey beat cop recruited—through highly unorthodox methods—by a secret government law-enforcement organization. Trained to become the most deadly assassin, Remo is America's last line of defense against mad scientists, organized crime, ancient undead gods, and anything else that threatens the Constitution. An action-adventure series leavened with social and political satire, the Destroyer novels have been thrilling readers worldwide for decades.
