Hannah Arendt: Twenty Years Later (Studies in Contemporary German Social Thought)

Hannah Arendt (1906-1975) was one of the most important political philosophers of our century. Born in Germany, Arendt studied with Martin Heidegger and Karl Jaspers. She escaped after the Nazis came to power; remained stateless until 1951, when she became a U.S. citizen; was the first woman appointed to a full professorship at Princeton; and became a prominent "public intellectual" whose positions were often controversial. Her major works include *The Origins of Totalitarianism*, *Eichmann in Jerusalem: A Report on the Banality of Evil*, *The Human Condition*, and *The Life of the Mind* (unfinished at her death). Now, twenty years later, this collection of fifteen essays brings her work into dialogue with those philosophical views that are at center stage today -- in critical theory, communitarianism, virtue theory, and feminism. The essays are divided into four sections: Political Action and Judgment; Ethics and the Nature of Evil; Self and World; and Gender and Jewishness. An extensive bibliography of work on Arendt in English is included as an appendix.
