Health Care Law and Ethics, Eighth Edition (Aspen Casebooks) Mark A. Hall, Mary Anne Bobinski, David Orentlicher

Health Care Law and Ethics is the definitive casebook for covering all aspects of the dynamic field of health care law, including thought-provoking discussions of topical and controversial subjects such as gene patenting and DNA banks. Its relationship-oriented approach is accessible and builds logically from ethics of the patient/provider relationship through to state and institutional involvement in health care. Drawing on current and classic case law, this text is appropriate for survey and specialized law school classes on health care law. The three soft-bound "splits", covering medical malpractice and treatment relationships; bioethics and public health and regulation; and insurance law and corporate law, make the material readily adaptable for more specialized course focus.

The **Eighth Edition** has been thoroughly updated and includes new material on all aspects of the controversial Affordable Care Act, new case law and discussion of legislative responses to developments in biotech, and updates for HIPAA and the international aspects of public health.
