MSMQ From Scratch Level 8 Systems

MSMQ From Scratch is designed to enable you to design program-to-program communication strategies to fully integrate an order entry, processing and fulfillment application. Learn architectural and enterprise strategies while setting up your sample application and learn how to send and receive messages using the message queue. Build and implement the order tracking system, add tracking and reporting capability and security features. See how MSMQ seamlessly communicates with IBM's MQSeries using Level8's Falcon bridging technology, the #1 message queuing bridging technology used today.
