The Art of War/The Book Of Lord Shang (Wordsworth Classics of World Literature) Sun-tzu, Shang Yang

The two political classics in this book are the product of a time of intense turmoil in Chinese history. Dating from the Period of the Warring States (403-221BC), they anticipate Machiavelli's *The Prince* by nearly 2000 years. *The Art of War* is the best known of a considerable body of Chinese works on the subject. It analyses the nature of war, and reveals how victory may be ensured. *The Book of Lord Shang* is a political treatise for the instruction of rulers. These texts are anything but armchair strategy or ivory-tower speculation. They are serious, urgent and practical responses to the desperate situations in which they were written. They have been immensely influential both inside and outside China.
