Doulos UVM Golden Reference Guide John Aynsley, David Long, Doug Smith, Mike Smith

The UVM Golden Reference Guide is a compact reference guide to the Universal Verification Methodology for SystemVerilog. The purpose of this book is to provide a convenient and concise reference guide to UVM together with lots of practical advice and tips. Rather than giving a complete, formal description of every UVM class and method, it offers answers to the questions engineers most often ask during the practical application of UVM. This guide will help you to understand and use UVM more effectively.

The Golden Reference Guide series from Doulos has established a world-wide reputation as the engineer's must-have project reference. They're the perfect project companion; packed with syntax, hints, tips and "gotchas", these handy pocket sized reference books offer a practical guide to using design languages and methodologies, written in an easy to follow style. Developed to add value to the Doulos range of training courses and to embody the knowledge gained through Doulos methodology and consulting activities, Doulos Golden Reference Guides are written in English and are now available in both printed and eBook formats.
