This book is designed for those who want to convert their living room instantly into a Chinese-speaking environment, by means of free Internet resources. The targeted readers are either adults/teenagers interested in the Chinese language or parents who want to help their children learn Chinese.

In the book the author recommends, after very careful selection, hundreds of fascinating Chinese animated cartoons. To watch these videos, the readers are not required to know Chinese at all.

In deciding which videos to recommend, we have considered the following factors: (1) How good is the video in terms of educational value? (2) Is it a classic or currently popular cartoon? (3) Does the video contain erotic material or too much violence? (4) Is the image quality of the video clear and satisfactory? (5) The genres of the selected cartoons should be as diverse as possible.

Table of Contents:

Chapter I gives some surprising facts and convincing reasons of why learning Chinese is desirable.

Chapter II describes the language-learning problems for readers self-studying Chinese.

Chapter III explains our easy, convenient but effective solution for the problems mentioned above.

Chapter IV gives the readers a lot of important tips on how to learn Chinese by watching the animated cartoons in their living room.

Chapter V contains 6 titles of basic Chinese animated cartoons.

Chapter VI contains 12 titles of more advanced Chinese cartoons for the readers to enjoy.
