Bidyut K. Paul, Satya P. Moulik

Ionic Liquid-Based Surfactant Science: Formulation, Characterization, and Applications (Wiley Series on Surface and Interfacial Chemistry) Bidyut K. Paul, Satya P. Moulik

This volume will be summarized on the basis of the topics of Ionic Liquids in the form of chapters and sections. It would be emphasized on the synthesis of ILs of different types, and stabilization of amphiphilic self-assemblies in conventional and newly developed ILs to reveal formulation, physicochemical properties, microstructures, internal dynamics, thermodynamics as well as new possible applications. It covers:

- Topics of ionic liquid assisted micelles and microemulsions in relation to their fundamental characteristics and theories
- Development bio-ionic liquids or greener, environment-friendly solvents, and manifold interesting and promising applications of ionic liquid based micelles and micremulsions

From reader reviews:

Joann Hamilton:

The book untitled Ionic Liquid-Based Surfactant Science: Formulation, Characterization, and Applications (Wiley Series on Surface and Interfacial Chemistry) contain a lot of information on it. The writer explains the girl idea with easy approach. The language is very clear to see all the people, so do not really worry, you can easy to read that. The book was authored by famous author. The author provides you in the new age of literary works. You can actually read this book because you can continue reading your smart phone, or device, so you can read the book throughout anywhere and anytime. In a situation you wish to purchase the e-book, you can open up their official web-site and also order it. Have a nice learn.

Beulah Scherr:

In this time globalization it is important to someone to find information. The information will make anyone to understand the condition of the world. The fitness of the world makes the information simpler to share. You can find a lot of references to get information example: internet, paper, book, and soon. You can observe that now, a lot of publisher this print many kinds of book. The actual book that recommended to you personally is Ionic Liquid-Based Surfactant Science: Formulation, Characterization, and Applications (Wiley Series on Surface and Interfacial Chemistry) this book consist a lot of the information with the condition of this world now. That book was represented how can the world has grown up. The vocabulary styles that writer require to explain it is easy to understand. The actual writer made some investigation when he makes this book. This is why this book appropriate all of you.

Jonathan Sanders:

Do you like reading a book? Confuse to looking for your preferred book? Or your book seemed to be rare? Why so many problem for the book? But any people feel that they enjoy to get reading. Some people likes looking at, not only science book but in addition novel and Ionic Liquid-Based Surfactant Science: Formulation, Characterization, and Applications (Wiley Series on Surface and Interfacial Chemistry) or even others sources were given knowledge for you. After you know how the great a book, you feel would like to read more and more. Science guide was created for teacher or perhaps students especially. Those books are helping them to put their knowledge. In other case, beside science publication, any other book likes Ionic Liquid-Based Surfactant Science: Formulation, Characterization, and Applications (Wiley Series on Surface and Interfacial Chemistry) to make your spare time considerably more colorful. Many types of book like this one.

Carol Benally:

Guide is one of source of know-how. We can add our knowledge from it. Not only for students but in addition native or citizen will need book to know the change information of year to year. As we know those

guides have many advantages. Beside all of us add our knowledge, can also bring us to around the world. From the book *Ionic Liquid-Based Surfactant Science: Formulation, Characterization, and Applications* (Wiley Series on Surface and Interfacial Chemistry) we can acquire more advantage. Don't one to be creative people? To become creative person must prefer to read a book. Just choose the best book that suited with your aim. Don't end up being doubt to change your life at this book *Ionic Liquid-Based Surfactant Science: Formulation, Characterization, and Applications* (Wiley Series on Surface and Interfacial Chemistry). You can more desirable than now.
