Do you believe that man's use of hydrocarbon fuels like coal, oil and gasoline is causing global temperatures to rise, and that this man-made global warming will have catastrophic consequences on our world and mankind? Yes or No If you said, Yes, you are among a sizable majority of people who believe that man-made global warming is real. In fact, to this day, 75 percent of the population continues to believe that man-made global warming is **THE MOST SIGNIFICANT ISSUE THE WORLD FACES**. The problem is that you and the rest of those who believe in man-made global warming are **WRONG!** There is irrefutable scientific evidence that global temperatures are **NOT** rising (in fact, temperatures have dropped slightly since 1998), that man is **NOT** affecting climate change, and that all of the implausible and overheated projections of environmental disaster are completely **FALSE**. Yet, the hoax persists. **WHY?** The reason is a severe lack of **RELATIONAL INTELLIGENCE** among the public as to the truth about man-made global warming and the devious agenda behind legislation to fight climate change. A lack of **RELATIONAL INTELLIGENCE** is an inability to connect the dots and people continue to cling to their myopic beliefs about man-made global warming, despite the recent exposure of Climategate and other similar scandals proving how pseudo-scientists with the blessing and support of both the government and the media have been manipulating data to keep the hoax of man-made global warming alive. This book presents the most up-to-date and concise summary of the science, economics and politics behind the man-made global warming hoax with only one goal to give people the opportunity to **THINK** better about this issue. Only with enhanced **RELATIONAL INTELLIGENCE** can the government be prevented from **FLEECING AMERICAN TAXPAYERS OUT OF TRILLIONS OF DOLLARS OF ADDITIONAL TAXES AND FEES. OPT NOT TO READ THIS BOOK AT YOUR OWN PERIL... AND THE PERIL OF OUR NATION'S FUTURE.** Relational Intelligence is a registered trademark of Richard C. Huseman, Ph.D.
