Michael Banks

On the Way to the Web: The Secret History of the Internet and Its Founders Michael Banks

On the Way to the Web: The Secret History of the Internet and Its Founders is an absorbing chronicle of the inventive, individualistic, and often cantankerous individuals who set the Internet free. **Michael A. Banks** describes how the online population created a new culture and turned a new frontier into their vision of the future.

This book will introduce you to the innovators who laid the foundation for the Internet and the World Wide Web, the man who invented online chat, and the people who invented the products all of us use online every day. Learn where, when, how and why the Internet came into being, and exactly what hundreds of thousands of people were doing online before the Web. See who was behind it all, and what inspired them.

What you'll learn

You'll find these stories of people and events on the way to the Web:

- CIA agents in search of military hardware for sale online
- The first online privacy scandal, three decades ago
- The first instance of online censorship in 1979
- How in 1980 the FBI demanded the ID of a CompuServe user who tried to sell 3,000 M16 rifles online
- Early con artists
- Online romance scams
- Identify theft
- Who really created AOL (Hint: it wasn't Steve Case)
- The wireless Internet that was built in 1978
- Why the @ sign is used in email addresses

Dale Winsett:

As we know that book is significant thing to add our understanding for everything. By a publication we can know everything we wish. A book is a set of written, printed, illustrated or even blank sheet. Every year was exactly added. This publication On the Way to the Web: The Secret History of the Internet and Its Founders was filled with regards to science. Spend your free time to add your knowledge about your scientific research competence. Some people has several feel when they reading any book. If you know how big advantage of a book, you can feel enjoy to read a reserve. In the modern era like at this point, many ways to get book that you simply wanted.

Larry Artz:

As a scholar exactly feel bored to be able to reading. If their teacher asked them to go to the library or even make summary for some e-book, they are complained. Just small students that has reading's heart or real their interest. They just do what the educator want, like asked to go to the library. They go to presently there but nothing reading seriously. Any students feel that looking at is not important, boring as well as can't see colorful pics on there. Yeah, it is being complicated. Book is very important for yourself. As we know that on this age, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore this On the Way to the Web: The Secret History of the Internet and Its Founders can make you feel more interested to read.
