The Coming of Age of Information Technologies and the Path of Transformational Growth: A long run perspective on the late 2000s recession (Routledge Advances in Heterodox Economics) Davide Gualerzi

In this book, Davide Gualerzi employs the concept of transformational growth to explore the investment-driven cycle of expansion of the 1990s in the US economy, and of the role played by the ICT sector.

The book articulates a view of demand-led growth in which the focus is on effective demand, the composition of the growth process and the link between changing composition and expansion.
