Aging and The Life Course: An Introduction to Social Gerontology Jill Quadagno

This groundbreaking text is the first to take a life course perspective, examining the relationship between the quality of one's life in old age and one's experiences, earlier choices, opportunities, and constraints. The text gives students a broad background for understanding current policy debates through a distinctive chapter entitled "Old Age and the Welfare State" (Chapter 11) and through boxed essays in every chapter called "An Issue for Public Policy." Each chapter also includes a box called "In Their Own Words" that allows older people to describe their own experiences. In addition, coverage of race, class, gender, and culture is integrated throughout and featured in the "Diversity in the Aging Experience" sections.
