## **Emerging Topics in Computer Vision and Its Applications (Series in Computer Vision) C. H. Chen**

This book gives a comprehensive overview of the most advanced theories, methodologies and applications in computer vision. Particularly, it gives an extensive coverage of 3D and robotic vision problems. Example chapters featured are Fourier methods for 3D surface modeling and analysis, use of constraints for calibration-free 3D Euclidean reconstruction, novel photogeometric methods for capturing static and dynamic objects, performance evaluation of robot localization methods in outdoor terrains, integrating 3D vision with force/tactile sensors, tracking via in-floor sensing, self-calibration of camera networks, etc. Some unique applications of computer vision in marine fishery, biomedical issues, driver assistance, are also highlighted.

### **From reader reviews:**

#### **Patricia Nebeker:**

The e-book untitled Emerging Topics in Computer Vision and Its Applications (Series in Computer Vision) is the guide that recommended to you to read. You can see the quality of the publication content that will be shown to an individual. The language that writer use to explained their ideas are easily to understand. The article author was did a lot of study when write the book, hence the information that they share for you is absolutely accurate. You also might get the e-book of Emerging Topics in Computer Vision and Its Applications (Series in Computer Vision) from the publisher to make you more enjoy free time.

#### **Adrian Kester:**

The book untitled Emerging Topics in Computer Vision and Its Applications (Series in Computer Vision) contain a lot of information on the idea. The writer explains the girl idea with easy method. The language is very straightforward all the people, so do not necessarily worry, you can easy to read this. The book was authored by famous author. The author will take you in the new period of time of literary works. It is possible to read this book because you can keep reading your smart phone, or model, so you can read the book throughout anywhere and anytime. If you want to buy the e-book, you can start their official web-site as well as order it. Have a nice study.

#### **Ann Birdsell:**

Beside this Emerging Topics in Computer Vision and Its Applications (Series in Computer Vision) in your phone, it could give you a way to get nearer to the new knowledge or data. The information and the knowledge you will got here is fresh in the oven so don't possibly be worry if you feel like an previous people live in narrow village. It is good thing to have Emerging Topics in Computer Vision and Its Applications (Series in Computer Vision) because this book offers to your account readable information. Do you oftentimes have book but you would not get what it's interesting features of. Oh come on, that wil happen if you have this inside your hand. The Enjoyable agreement here cannot be questionable, just like treasuring beautiful island. Techniques you still want to miss it? Find this book as well as read it from right now!

#### **Marion Driskell:**

Reading a reserve make you to get more knowledge from it. You can take knowledge and information from a book. Book is published or printed or descriptive from each source this filled update of news. On this modern era like at this point, many ways to get information are available for anyone. From media social like newspaper, magazines, science publication, encyclopedia, reference book, story and comic. You can add your understanding by that book. Ready to spend your spare time to spread out your book? Or just in search of the Emerging Topics in Computer Vision and Its Applications (Series in Computer Vision) when you essential it?
