Music, Sense and Nonsense: Collected Essays and Lectures Alfred Brendel

Alfred Brendel, one of the greatest pianists of our time, is renowned for his masterly interpretations of Haydn, Mozart, Beethoven, Schubert and Liszt, and has been credited with rescuing from oblivion the piano music of Schubert's last years. Far from having merely one string to his bow, however, Brendel is also one of the world's most remarkable writers on music - possessed of the rare ability to bring the clarity and originality of expression that characterised his performances to the printed page. The definitive collection of his award-winning writings and essays, *Music, Sense and Nonsense* combines all of his work originally published in his two classic books, *Musical Thoughts and Afterthoughts* and *Music Sounded Out*, along with significant new material on a lifetime of recording, performance habits and reflections on life and art. As well as providing stimulating reading, this new edition provides a unique insight into the exceptional mind of one of the outstanding musicians of the twentieth and twenty-first centuries. Whether discussing Bach or Beethoven, Schubert or Schoenberg, Brendel's reflections are illuminating and challenging, a treasure for the specialist and the music lover alike.
