Since the beginning of critical scholarship biblical texts have been dated using linguistic evidence. Until now there has been no introduction to and comprehensive overview of the field. Volume 2 of *Linguistic Dating of Biblical Texts* contains an extensive overview of dates attributed to different books and corpora of the Hebrew Bible in modern scholarship, demonstrating the lack of consensus on the dating of biblical texts. A synthesis of the main arguments of the work is presented, drawing also on many points from volume 1, followed by 50 pages of case studies, a list of linguistic features attributed to LBH in earlier research, a bibliography of 70 pages and several indexes.
