Joao Magueijo

Faster Than the Speed of Light: The Story of a Scientific Speculation Joao Magueijo

According to orthodox physics, as enshrined in Einstein's Special Theory of Relativity, light travels at one speed & one speed only -- it is one of nature's constants. This idea is considered sacred & is one of the foundations of modern physics. But what if it's wrong? In this remarkable & fascinating book, Joao Magueijo puts forward an extraordinary speculation -- that light traveled faster in the early universe than it does today. Tracing the story of this revolutionary idea from its conception, this book tells of one man's quest to decipher the true nature of the universe, providing a first glimpse of 21st-century physics, as well as providing a fascinating & revealing insight into the reality of how science is done. Black & white illustrations.
