Problèmes choisis de mathématiques supérieures (SCOPOS) (French Edition) H. Gianella, R. Krust, F. Taieb, N. Tosel

Ce livre rassemble des énoncés de problèmes de mathématiques proposés par les auteurs à leurs étudiants en classe préparatoire MPSI au Lycée Louis-Le-Grand à Paris. Les problèmes sont de difficulté progressive, pour la plupart originaux, et parfois établissent des résultats mathématiques récents. Une brève introduction permet de les situer dans un contexte mathématique plus vaste. Tous les énoncés sont suivis de corrigés détaillés, et complétés s'il y a lieu d'indications bibliographiques permettant d'engager une étude plus poussée du sujet.
