Love—and desire—that's out of this world...

It's time to suit up, take those protein pills, and boldly come where no man has come before. Take a trip to the future, or do your bit for inter-planetary relations with some close encounters of a very unusual kind.

In this erotic science fiction triple feature you'll meet a cat that's anything but cute and cuddly, take a pill that'll make you fall in love—for a night—and discover desire that transcends the limitations of a human body. It's a brave new world as you explore the unknown in three short stories that push the boundaries of love in ways both thoughtful and tongue-in-cheek.

These stories have all been previously published, but are now available exclusively in this anthology.
