Ted Jaeckel

The God Particle: The Discovery and Modeling of the Ultimate Prime Particle Ted Jaeckel

Dubbed the "God particle" by Nobel Prize-winning physicist Leon Lederman, the Higgs boson is a hypothetical particle which, like divinity, is all pervading but undetectable. Scientists around the world race to find this clandestine particle. This book is about a different quest to find a different particle. This too is all-pervasive and totally clandestine. By revisiting the key experiments of the past, those that have shaped physics as we know it today, and re-assessing them in the light of a new theory based on a prime particle, we confirm the existence of the elusive God Particle. It's a particle belonging to an as yet undreamed of class of matter, many orders of magnitude smaller than anything we have even imagined. The theory based on this particle ultimately leads to an overarching but simple proposition that all of the phenomena of nature can be described in terms of one particle, one force and one law.

From reader reviews:

Tyrell Gutierrez:

Why don't make it to be your habit? Right now, try to ready your time to do the important work, like looking for your favorite publication and reading a book. Beside you can solve your short lived problem; you can add your knowledge by the book entitled The God Particle: The Discovery and Modeling of the Ultimate Prime Particle. Try to stumble through book The God Particle: The Discovery and Modeling of the Ultimate Prime Particle as your friend. It means that it can to get your friend when you really feel alone and beside those of course make you smarter than before. Yeah, it is very fortunated in your case. The book makes you more confidence because you can know everything by the book. So , let us make new experience along with knowledge with this book.

Leopoldo Gonzalez:

The book The God Particle: The Discovery and Modeling of the Ultimate Prime Particle can give more knowledge and information about everything you want. Why must we leave the great thing like a book The God Particle: The Discovery and Modeling of the Ultimate Prime Particle? Several of you have a different opinion about reserve. But one aim in which book can give many information for us. It is absolutely correct. Right now, try to closer along with your book. Knowledge or details that you take for that, you are able to give for each other; you may share all of these. Book The God Particle: The Discovery and Modeling of the Ultimate Prime Particle has simple shape however, you know: it has great and large function for you. You can look the enormous world by open and read a reserve. So it is very wonderful.

Barbara Lewis:

Your reading sixth sense will not betray a person, why because this The God Particle: The Discovery and Modeling of the Ultimate Prime Particle reserve written by well-known writer whose to say well how to make book which might be understand by anyone who also read the book. Written throughout good manner for you, dripping every ideas and publishing skill only for eliminate your own personal hunger then you still uncertainty The God Particle: The Discovery and Modeling of the Ultimate Prime Particle as good book not merely by the cover but also with the content. This is one e-book that can break don't ascertain book by its include, so do you still needing another sixth sense to pick that!?. Oh come on your looking at sixth sense already told you so why you have to listening to yet another sixth sense.

Ross Fletcher:

As a college student exactly feel bored in order to reading. If their teacher inquired them to go to the library as well as to make summary for some reserve, they are complained. Just tiny students that has reading's heart and soul or real their hobby. They just do what the teacher want, like asked to go to the library. They go to at this time there but nothing reading very seriously. Any students feel that reading is not important, boring and can't see colorful images on there. Yeah, it is to get complicated. Book is very important for you. As we

know that on this age, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. Therefore this The God Particle: The Discovery and Modeling of the Ultimate Prime Particle can make you truly feel more interested to read.
