ISO 8662-8:1997, Hand-held portable power tools - Measurement of vibrations at the handle - Part 8: Polishers and rotary, orbital and random orbital sanders ISO TC 118/SC 3

This part of ISO 8662 specifies a laboratory method for measuring the vibrations at the handles of a hand-held pneumatic polisher or rotary, orbital or random orbital sander. It is a type test procedure for establishing the magnitude of vibrations at the handles of the power tool when operating under a specified load. Four types of power tools are concerned: polisher, with circular polishing pad; vertical rotary sander, with circular sanding pad; orbital sander, with rectangular, circular (or other) sanding pad; random orbital sander (including grinding-type tools fitted with a dual-action orbital hub), with circular sanding pad. This part of ISO 8662 is not applicable to straight rotary sanders and belt sanders. It is intended that the results be used to compare different power tools or different models of the same type of power tool. With the operation specified for the power tool, the values obtained will give an indication of those found in real work situations.

From reader reviews:

Gloria Brower:

The book ISO 8662-8:1997, Hand-held portable power tools - Measurement of vibrations at the handle - Part 8: Polishers and rotary, orbital and random orbital sanders will bring you to the new experience of reading any book. The author style to spell out the idea is very unique. When you try to find new book to read, this book very appropriate to you. The book ISO 8662-8:1997, Hand-held portable power tools - Measurement of vibrations at the handle - Part 8: Polishers and rotary, orbital and random orbital sanders is much recommended to you to learn. You can also get the e-book through the official web site, so you can quicker to read the book.

Leona Hicks:

Would you one of the book lovers? If yes, do you ever feeling doubt while you are in the book store? Aim to pick one book that you never know the inside because don't evaluate book by its protect may doesn't work here is difficult job because you are afraid that the inside maybe not while fantastic as in the outside look likes. Maybe you answer may be ISO 8662-8:1997, Hand-held portable power tools - Measurement of vibrations at the handle - Part 8: Polishers and rotary, orbital and random orbital sanders why because the wonderful cover that make you consider with regards to the content will not disappoint anyone. The inside or content is fantastic as the outside as well as cover. Your reading sixth sense will directly make suggestions to pick up this book.

Jason Scott:

Don't be worry in case you are afraid that this book will certainly filled the space in your house, you can have it in e-book way, more simple and reachable. That ISO 8662-8:1997, Hand-held portable power tools - Measurement of vibrations at the handle - Part 8: Polishers and rotary, orbital and random orbital sanders can give you a lot of pals because by you looking at this one book you have matter that they don't and make you actually more like an interesting person. This kind of book can be one of one step for you to get success. This reserve offer you information that might be your friend doesn't realize, by knowing more than various other make you to be great folks. So , why hesitate? We should have ISO 8662-8:1997, Hand-held portable power tools - Measurement of vibrations at the handle - Part 8: Polishers and rotary, orbital and random orbital sanders.

Shannon Thomas:

What is your hobby? Have you heard that will question when you got college students? We believe that that concern was given by teacher to their students. Many kinds of hobby, Everyone has different hobby. And also you know that little person just like reading or as looking at become their hobby. You need to know that reading is very important as well as book as to be the factor. Book is important thing to provide you

knowledge, except your own teacher or lecturer. You discover good news or update in relation to something by book. Many kinds of books that can you choose to adopt be your object. One of them is this ISO 8662-8:1997, Hand-held portable power tools - Measurement of vibrations at the handle - Part 8: Polishers and rotary, orbital and random orbital sanders.
