Editor Brian Thomsen admits that film was his entree into the world of science fiction. After watching classics such as *Fantastic Voyage* and *Voyage to the Bottom of the Sea*, he discovered that many of the most dramatic presentations were based on written stories. So he sought out the authors, read their works, and became enthralled by the golden word as well as the silver screen. Years later he decided to compile an anthology of stories that were translated to film, and the result is *CYBER FILMS*. The book contains twelve works by writers such as Philip K. Dick and John Varley; some writers are well known and others are not as readily recognizable. Included in the anthology are Dick's *SECOND VARIETY* and *WE CAN REMEMBER IT FOR YOU WHOLESALE*, which turned up on screen as *Screamers* and *Total Recall*, respectively. Also included in this collection is an H.P. Lovecraft story, *HERBERT WEST: REANIMATOR*, which Hollywood made into *Re-Animator*, a campy SF horror classic.
