Imagine if there were portals that connected all of the Infinite Realities together. Places where the past came alive, only gods and goddesses held sway. Or maybe magic was real. Or perhaps places where the future came to life, both good and bad.

William has just found one of these, quite by accident, and the more he investigates this new world the more he realizes that it may just be able to offer him a lot more than the one he's been living in.

However, there are forces at work beyond anything that Will has ever come across before and the local Goddess seems to have taken a liking to him. Will may soon find himself getting an offer and cannot afford to refuse.
