**Essentials of Development Economics** J. Edward Taylor, Travis J. Lybbert

Written to provide students with the critical tools used in today's development economics research and practice, *Essentials of Development Economics* represents an alternative approach to traditional textbooks on the subject. Compact and less expensive than other textbooks for undergraduate development economics courses, *Essentials of Development Economics* offers a broad overview of key topics and methods in the field. Its fourteen easy-to-read chapters introduce cutting-edge research and present best practices and state-of-the-art methods. Each chapter concludes with an embedded QR code that connects readers to ancillary audiovisual materials and supplemental readings on a website curated by the authors. By mastering the material in this book, students will have the conceptual grounding needed to move on to higher-level development economics courses.
