A New York Times Best Seller!

Richard Belzer and David Wayne are back to set the record straight after *Dead Wrong*; this time they're going to uncover the truth about the many witness deaths tied to the JFK assassination. For decades, government pundits have dismissed these "coincidental" deaths, even regarding them as "myths" as "urban legends."

Like most people, Richard and David were initially unsure about what to make of these 'coincidences'. After all, events don't "consult the odds" prior to happening; they simply *happen*. Then someone comes along later and figures out what the odds of it happening were. Some of the deaths seemed purely coincidental; heart attacks, hunting accidents. Others clearly seemed noteworthy; witnesses who *did* seem to know something and *did* seem to die mysteriously.

Hit List is a fair examination of the evidence of each case, leading to (necessarily) different conclusions. The findings were absolutely staggering; as some cases were clearly linked to a "clean-up operation" after the murder of President Kennedy, while others were the result of 'other forces'. The impeccable research and writing of Richard Belzer and David Wayne show that if the government is trying to hide anything, they're the duo who will uncover it.

Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.
