La revisión por pares, el factor de impacto, el índice h, internet, la ciencia 2.0 y muchos temas más se relacionan estrechamente con la tercera etapa del método científico: la comunicación. De esta manera, los autores de “Qué es la comunicación científica?” acercan a estudiantes, profesionales o aficionados a la investigación científica a una variedad de asuntos que algunas veces se desconocen, se tienen ideas erróneas de ellos o se necesita tener la visión de otros. Judith Licea y Miguel Arenas, profesores universitarios mexicanos, formadores de investigadores y constructores de comunidades científicas regionales formulan preguntas y responden un sinnúmero de interrogantes relacionadas con la comunicación en la ciencia. En esta obra se abordan desde los aspectos generales de la investigación y las comunidades científicas, hasta la ética en la investigación y en la publicación. Por tanto, se recomienda este libro para los que se inician y los profesionales de la investigación en cualquier área del conocimiento. Javier Valles-Valenzuela
